To Property Owner and Residents and All Interested Parties:

**NOTICE OF PUBLIC HEARING**

This is to notify you of a public hearing scheduled for Monday, August 25, 2008 at 12:30 PM.  
Location: Palisades Branch Public Library, 861 Alma Real Drive, Pacific Palisades, CA 90272.

Project Title: COASTAL DEVELOPMENT PERMIT APPLICATION NOS. 08-05, 08-04 and 08-03 FOR THE SANTA MONICA CANYON AND PALISADES PARK LOW FLOW DIVERSION (LFD) UPGRADES AND COASTAL INTERCEPTOR RELIEF SEWER (CIRS)

Project Description: To upgrade two existing low flow diversions (LFDs) and to construct a 4,500-foot long relief sewer within the Community of Pacific Palisades and the northern limits of the City of Santa Monica. The Pacific Palisades LFD would be upgraded at its current location and a new LFD system would be installed near the mouth of the Santa Monica Canyon Channel. The CIRS would extend from its upstream end at the existing Palisades Park LFD downstream southeasterly, across the City of Los Angeles border, connecting to the existing sewer in the City of Santa Monica. The relief sewer will accommodate additional flows. The CIRS would consist of approximately 4,500 total lineal feet of pipe of varying diameters (30, 36, 42, and 48-inch). Roughly 1,400 lineal feet of the alignment would be located within Will Rogers Parking Lot 2 East and Parking Lot 1 and the remaining portion would lie within Pacific Coast Highway right-of-way. Construction within Pacific Coast Highway would require nighttime construction and partial lane closures. Mitigation measures have been included to ensure that any impacts are reduced to a less than significant level. You and other interested persons, as well as the applicant may speak or submit written information. All written comments received at or before the hearing will be considered prior to a decision on the case. Written comments should be sent by email to: [Maria.Martin@lacity.org](mailto:Maria.Martin@lacity.org), or mail to:
